**Public Notice:**  
**Proposed Underground Storage Tank Case Closure**

**Chevron No. 96397 (T0609900376)**

**Case No. 500438**

**1600 Sisk Road**

**Modesto, Stanislaus County, CA**

Chevron No. 96397 is located at 1600 Sisk Road in Modesto, California (the Site). Chevron has cleaned up the petroleum release associated with its underground storage tanks (USTs). The Central Valley Regional Water Quality Control Board (Central Valley Water Board) is providing you an opportunity to comment regarding the proposed cleanup case closure.

In October 1998, Savidge Construction Company removed three 10,000-gallon gasoline USTs, one diesel UST, one 500-gallon waste oil UST, one oil-water separator, three hydraulic lifts, and associated petroleum piping from the Site. Gettler-Ryan Inc. collected soil and groundwater samples before and after the removal of USTs. Stanislaus County Environmental Resource Department filed a UST unauthorized release report due to the petroleum impacts in the soil and groundwater samples. In October 1998, Savidge Construction Company excavated 1,890 tons of impacted soil from around the USTs and piping and disposed of the soil offsite. AECOM began operating an air sparge and soil vapor extraction remediation system in March 2018 and Arcadis continued operation of the system after October 2018. The remediation system removed about 9,700 pounds of hydrocarbons.

Based on these data and in a report dated November 13, 2020, Arcadis concluded that the Site meets the criteria for closure and poses a low threat to human health, safety, and the environment. Central Valley Water Board staff reviewed the report, and based on the data, concluded the case meets the criteria for closure. The Central Valley Water Board is issuing this notice and providing a 60-day public comment period to the owners and residents of all properties near the Site and other interested parties. Central Valley Water Board staff will consider comments they receive when evaluating the case closure.

**Public Comment Period:** March 15, 2021 through May 14, 2021

## FOR MORE INFORMATION

You can obtain additional information on the [State Water Resources Control Board's GeoTracker website](http://geotracker.waterboards.ca.gov/) (<http://geotracker.waterboards.ca.gov/>). Please contact Galvin Kauffman with the Central Valley Water Board if you have any comments or questions about this Public Notice or about the environmental cleanup activities at Chevron No. 96397:
